

# 19-inch splitter chassis features

## Overview

The 19-inch Sliding fiber Optic Splitter Panel is designed for quick installation and easy access to the splitter ports, which maximize fiber density in 2U rack spaces. PPC's. UnitekFiber produces rack chassis optical PLC splitters. The box is in 19 inch standard. The Rack mounted PLC splitter is mainly used in optical cable distribution boxes. Corning introduces a new family of high performance PLC Splitter (19-in Rack Mount) Modules for today's high-port count applications that demand the best performance and the highest reliability under the most adverse of environments. Fiber management trays are built into the front of the splitter chassis to facilitate efficient management of the. The optical splitters in the AOS series are flexible and scalable, making them ideal for the requirements of optical transmission networks. Read more. POLYTRON Broadband.
