

AL47 optical cable

Overview

This Loose tube dielectric optical cable is designed for external underground installations in ducts by pulling, jetting or floating techniques or by direct burial in open-cut trenches. The innovative FastAccess technology feature combined with the all-dielectric gel-free loose tube design. Access AFL's comprehensive product catalogs in PDF format—covering fiber optic cables, connectivity, fusion splicing, inspection tools, upstream/downstream energy, enterprise, tactical, and more—organized by category for quick download and easy reference. As topping we offer superior service, support and delivery options. Welcome to the Prysmian Sm@rt Solutions. arsh environments. The internationally known multilayer inner sheath ALPA® construction: Aluminium/HDPE/PA (nylon) withstands aggressive constituents and fluids, providing huge benefits for installing Fiber optic i and UV Resistant. Or PVC flame retardant, and Heat & O th is black color. However, technical specifications included herein should be used as a guideline only.
