

# Australian ADSS optical cable manufacturer supplies

## Overview

AFL Australia's ADSS fibre optic cables for aerial installations. Explore short, mid, and long-span options. These all-dielectric, self-supporting cables provide exceptional strength, lightweight construction, and resistance to electrical interference, making them. MSS Data Solutions is the established market leader in optical fibre design and innovation for communications cabling, servicing the enterprise, industrial and telecommunications industries across Australia and New Zealand. What Makes Us Unique?

We combine our strength of manufacturing high-quality. These cables are constructed with FRP Central Strength Member, Waterproof tape over the tube to give water and moisture resistance, Aramid yarn strength member for better tensile strength and rodent protection, and a PE outer jacket which gives an excellent tensile strength, mechanical, rodent. We offer a full range of fibre optic cables and supply for Australia: singlemode or multimode, FRP, CST or steel wire armoured, aerial self-supporting, ADSS, tactical cable (HFFR), drop, breakout, air blown micro, distribution, tight buffered, with nylon sheath for termite protection, subsea fibre. Veyra Fibre is an Australian-owned connectivity solutions provider, committed to sourcing and delivering globally trusted, high-performance fibre and connectivity solutions that exceed today's standards and empower tomorrow's networks - built on a foundation of truth, engineered with innovation. All-dielectric self-supporting (ADSS) cable is a type of optical fiber cable that is strong enough to support itself between structures without using conductive metal elements.
