

Barbados Bridge KBG

Overview

Of the two bridges built across this river, the Chamberlain Bridge was built as a draw bridge to allow large ships to cruise through the inlet and its name is in honour of the Colonial Secretary who helped Barbados with financial assistance after the 1898 hurricane. Overview The Chamberlain Bridge is a bridge in, the capital and largest city of the nation of There. The swing bridge replaced an old wooden bridge named "Indian Bridge," which ushered development through the movement of small boats into the inner basin of the Careenage River. The bridge was later re. The history of this bridge is recorded by Warren Alleyne in his book Historic Bridgetown. According to Alleyne, a primitive bridge, built by the indigenous, was replaced in 1628 by the Wolverston. The Arawak Indians, the original inhabitants of Barbados, built a wooden bridge, the Arawak Indian bridge, across the inlet channel named the Constitution River or the Careenage River. Later, this part of the city became. The lift bridge was designed by to replace the bridge built in 1872. Several designs were considered. Finally, a unique design using fibre-reinforced plastic (FRP) composite known as the "space age material" was.
