

Brazilian fluorescence spectrometer price quote

Overview

Prices for new systems generally range from \$3,000 to \$60,000, depending on the wavelength range, sensitivity, and additional features. High-end models designed for advanced fluorescence detection or extended UV-Vis ranges are priced at the upper end. In general, the import price showed a sharp slump., SpectroLab M8) to over \$35,000 for specialized configurations Bimedis. Competitors: HORIBA, Shimadzu, Hitachi High-Technologies, and Edinburgh. A fluorescence spectrometer is a powerful analytical instrument used to measure the intensity and spectral characteristics of fluorescence emitted by a sample when exposed to specific wavelengths of light. These instruments are essential in chemistry, biology, environmental science, and. Get a free quote!.
