

Cable tray production location

Overview

ABB designs and manufactures cable tray systems, including perforated tray, cable ladder, channel tray and strut (metal framing), directly from production facilities in Canada and Saudi Arabia. Cable tray manufacturing involves creating trays that are designed to hold, support, and protect electrical cables in various environments. The foundation of quality cable tray production begins. IMARC Group's comprehensive DPR report, titled "Metal Cable Tray Manufacturing Plant Project Report 2026: Industry Trends, Plant Setup, Machinery, Raw Materials, Investment Opportunities, Cost and Revenue," provides a complete roadmap for setting up a metal cable tray manufacturing unit. According to ISO standards, quality control ensures cable trays meet specific fire, corrosion, and durability ratings.
