

Cable tray straight through horizontal bar

Overview

These tray systems allow excellent ventilation and prevent sagging while routing. Hubbell's NEXTFRAME® Ladder Tray is the effective and widely used cable runway that supports and delivers bundles of cable between cabinets, racks, and closets, along walls, and suspended from ceilings. The Ladder Tray features light, rugged, tubular steel construction. Cable trays are used as an alternative to open wiring or electrical conduit systems, and are commonly used for cable management in commercial and industrial construction. Not sure what kind of cable management you need?

Call or chat today and. ABB designs and manufactures cable tray systems, including perforated tray, cable ladder, channel tray and strut (metal framing), directly from production facilities in Canada and Saudi Arabia. Combining local manufacture and distribution with an extensive product range, these facilities ensure we. For ease of installation and accessibility, lay cable and hose in trays instead of pulling it through conduit or raceway. All fittings are available in sizes and types corresponding to the straight cable tray sections.
