

Cable tray tee upward

Overview

This cable tray vertical equal tee is designed for efficient cable management, facilitating upward transitions in cable tray systems. Constructed from copper-free aluminum, it offers excellent corrosion resistance and durability, making it suitable for various industrial applications. A range of nearly twenty fittings makes the system customizable, accommodating any kind of tricky configuration. Users can achieve design flexibility with numerous sizes of horizontal and vertical elbows, adjustable elbows, cross pieces, tees, reducers, and branches. Complies with NEMA Class 12B standards, ensuring reliable performance and safety. Rail heights range from 4" to 7" and widths range from 6" to 36". Aluminum construction provides a lightweight, high-strength. Diagonal Corner R=75 mm (Standard) 2. Feel free to get in touch with our customer service team. Manufactured to complement the range of.
