

Can network server racks be returned

Overview

The Cisco Takeback and Reuse Program lets Cisco equipment owners return hardware that has reached end-of-use, at no cost. This includes equipment branded by companies acquired by Cisco. Ready to get started?

Available in 100+ countries globally. If your equipment can be powered on, submit your. As technology rapidly evolves, organizations often decommission and replace their IT infrastructure, leaving behind server racks that are no longer compatible with modern data center requirements. While these racks might be deemed obsolete in large-scale facilities, they present valuable. Server recycling isn't as simple as tossing "old metal" into a bin—servers and racks come with data risk, serious weight, and (in a lot of places) rules about how electronics can be handled and disposed of. If you've got a closet full of retired gear or you're doing a full data center refresh, the. Here in the article we'll discuss what you need to consider for a successful server rack relocation. Moving a server to a new location hinges on thorough planning.
