

Case Study of Cable Management System Construction in Morocco

Overview

See how French engineering firm Egis JMI handled complex project risk management and 3D-modeling issues in building Africa's largest cable-stayed bridge. Constructing the Bouregreg River bridge in Morocco required the collaboration of six companies across three continents. Two agreements have been signed with Morocco's Ministry of Industry and Trade, Ministry of Energy Transition and Sustainable Development, Ministry of Investment, Convergence and Evaluation of Public Policies, National Office of Electricity and Drinking Water (ONEE), and Moroccan Investment and. Nexans aims to be carbon neutral by 2030 while reducing production costs to remain competitive in the market. During the implementation of the EnMS, NEXANS worked on the following obstacles hindering the company to reduce energy consumption: Lack of technical experience and knowledge in the field. Consulting Services, Prefeasibility for a Cable Transport System Prequalification As part of the improvement of the public transport offer on the territory of the agglomeration of Rabat-Salé, the STRS in partnership with KfW, wishes to carry out a Prefeasibility study for a cable transport system. Africables Morocco, Casablanca Manufacture of Car Batteries and Telecoms Cables Investment cost: \$812k (MAD 8,100k) To align with national carbon emissions and energy consumption reduction goals, AFRICABLES established an energy management system in line with ISO 50001 standards. The challenge has. Home » Buildings » Industrial » Cable Production Plant in Morocco Established by Indian Firm An Indian company, Indore Group, has made a significant investment of approximately \$16 million in the construction of a cutting-edge cable production plant in Morocco. This strategic initiative is part of.
