

China Tower Mobile Communication

Overview

China Tower Corp, a Beijing-based mobile communication infrastructure company that runs most of the country's telecom towers, recently announced that it had upgraded 250,000 telecom towers nationwide into "digital towers" supported by a vast network of 2.1 million tower sites across the country. The company installed approximately 745,000 5G base-stations during the year, with more than 96 percent of sites delivered through sharing existing network. Smart infra shift – China Tower is converting 2G. Green design – Solar, battery storage and smart energy systems are reducing emissions and creating emergency-ready, zero-carbon. This photo taken on July 25, 2022 shows a 5G base station constructed by China Tower in Suzhou, east China's Jiangsu Province.
