

Compatible 800G optical transmitter

Spanish supplier

Overview

Leading global players such as Finisar (II-VI Incorporated), Lumentum, and Sumitomo Electric dominate the Spain 800G optical transceiver components segment, collectively capturing approximately 65-70% of the market share. Carritech Optics provides advanced 800G Transceivers engineered to deliver ultra-high-speed, scalable, and efficient connectivity for next-generation data centres, cloud networks, and telecom infrastructures. Accelerating AI, machine learning, and next-generation workloads with 800G transceivers. Innovative technology, precision manufacturing, and rigorous testing ensure LSOLINK delivers high-performance optical solutions for diverse industries. Rigorous testing ensures 100% compatibility, covering both hardware, software and stability. The optical transceiver is RoHS compliant. Regional distribution indicates that Tier-1 manufacturers leverage. 800G Telecom ZR+, High Tx output power (0dBm), L-band 5THz tunable, 0°C to 70°C, LC receptacle 800G Digital Coherent Optics (DCO) transceivers are available to support various Dense Wavelength Division Multiplexing (DWDM) applications including Data Center Interconnect (DCI) up to 120km fiber. Enterprise-grade fiber optic transceivers compatible with Cisco, Arista, Juniper & more.
