

# Fiber optic gateway router server

## Overview

Fiber gateways are the FTTX CPE equipment providing LAN and WiFi connectivity, router, VoIP phone ports and IPTV pass through functions. They all have at least one optical fiber uplink, some including built-in fiber trays for compact installations. Desktop 10G independent gateway with integrated 4-port 2. Protection powered by Proofpoint's security experts and 1,000s of threat signatures with real-time updates. And now we bring you our Wi-Fi 7 ONT, for the highest in-home speeds. No matter the features or form factor you need, Nokia has the right. Vantiva's diverse platforms support GPON, XGS-PON, and 25GS-PON, empowering you to effortlessly upgrade your gateway fleet as your infrastructure evolves. OVERVIEW The fiber network offers speeds surpassing all other broadband technologies. GPON technology is now succeeded by the XGS-PON standard. BNG is deployed by the service provider and is present at the first aggregation point in the network, such as the edge router. Onboard, the UCG-Fiber features two SFP+ 10G ports and a 10GbE port, which handle both multi-WAN and LAN-facing connections.
