

Fiber optic patch cords for optical communication instruments

Overview

Fibre optic patchcords are single-, dual-, or multifibre data cables that are factory-assembled with the commonly used fibre optic connectors – LC, SC, E-2000, MTP, SN, CS, MDC, etc. – and are used to connect IT hardware (e. switches, servers) equipped with fibre optic. At ZION Communication, we design and manufacture a full range of fiber patch cords for: This guide will help you quickly understand the main types of fiber patch cords and how to choose the right solution for your project – and how ZION can support you with stable quality, flexible customization. A fiber optic patch cord is a piece of fiber optic cable that has connectors on both ends of the cable. The connectors allow it to be coupled with a piece of equipment, such as an optical switch, so that information can be sent and received. As a leading optical fiber patch cord manufacturer with over 15 years of experience, we specialize in delivering premium-grade.
