

Fireproof partitions for cable trays that pass through walls

Overview

Non-curing and re-usable firestop block designed for the easy re-penetration of retrofitted cables. * Two (2) sticks of moldable putty (part number FSP-MPS) are also needed for each opening. UL Listed Systems Concrete Wall - C-AJ-4056 3 HR F-Rating, 3/4 HR T-Rating Gypsum. Scope: Firestopping for busway, cable trays, cables, and trunking passing through walls in enclosed electrical installations. Where cables pass through shafts, walls, slabs, or enter electrical panels or cabinets, openings shall be tightly sealed with firestopping materials in accordance with. SpecSeal Quick Clip Insulation Hangers are designed to accelerate the installation of curtain wall insulation for perimeter fire barrier systems. FIRSTO fire stops are developed as a modular system which is simple to assemble around the cable run against the wall or on the floor.
