

# Four-in-one-out-of-the-light module

## Overview

The “four in one” mini LED module IMD package combines the advantages of SMD and COB, and solves the problems of ink consistency, stitching, light leakage, maintenance, etc. Device IO04F01KNX is a DIN rail EIB / KNX actuators with 4 relay outputs that can be configured as: 4 inputs (of the 4) are configurable as analogue for the connection of NTC temperature probes (see probes eelectron code TS00A01ACC / TS00B01ACC) with which to send 4 temperature measurements on the. linovum Ultra Flat 4 W LED Module (Extra Flat 23 mm) 230 V for Recessed Lights Recessed Spotlight Frame Replaces 40 W Halogen Warm White 2700 K Amazon's Choice highlights highly rated, well-priced products available to ship immediately. Prices for items sold by Amazon include VAT. Depending on your. “Four in one” means that there are four basic pixel structures in a package structure, which are still four “lamp beads” composed of 12 RGB – LED chips in essence. With innovative designs and advanced technology, we offer customized solutions that meet the highest requirements. This configuration allows manufacturers to create displays with higher pixel density and more precise brightness control.
