

Guyana Multimode Fiber Optic Company

Overview

GIC is at the forefront of digital transformation in Guyana, deploying a state-of-the-art terrestrial optical fiber network ring and 5G network. This network is designed to provide unparalleled connectivity, speed, and reliability, ushering in a new era of communication capabilities. Our mission is. Prime Minister Bridgadier (Ret'd) Mark Phillips commissioned a new multi-billion-dollar direct submarine fibre-optic cable, marking a historic moment for the region and closing the long-standing digital gap between the coastland and the hinterland. He has explained that new jobs would be created, and that he foresees the telecommunications. To sign up for Digicel's FibreX Internet service, you need to complete an order form, have an ONT device installed by Digicel and pay the first month's service charge upfront. You will also need the following documents: 5.
