

H3C switches support 4 optical ports

Overview

It features 24 x 10/100/1000BASE-T PoE+ ports, which can deliver power to devices like IP phones, security cameras, and wireless access points, and 4 x 100/1000BASE-X SFP Combo Ports, which offer flexibility for connecting to other switches or fiber optic devices using SFP. It features 24 x 10/100/1000BASE-T PoE+ ports, which can deliver power to devices like IP phones, security cameras, and wireless access points, and 4 x 100/1000BASE-X SFP Combo Ports, which offer flexibility for connecting to other switches or fiber optic devices using SFP. Based on the industry-leading 400 G platform, H3C S12500R supports a maximum 48-port 400 G forwarding performance in a single slot. H3C campus switches integrate the multi-ability of AC, SDN, PON and Security. For intelligent ultra-wideband cloud data center, full-scenario data center products and. The H3C S5024PV5-EI-PWR is a sophisticated 24-port Gigabit PoE switch designed for businesses requiring high-speed internet access, secure and methodical traffic management, and advanced PoE capabilities. Equipped with 4 optical fiber ports, this switch also supports VLAN and web page management. H3C S6800-2/4C support various types of interface cards, realize mixed configuration of high-density 10GE optical and copper port / 40GE / 100GE/MACsec/FC interface. For S6800-4C, It can support up to 96 10GE ports and 8 40GE ports, or 32 40GE high-speed interfaces. Figure 1 Schematic Diagram of Optical Module Connected to Switch 1.
