

How much does a Paraguayan fiber optic fusion splicer cost

Overview

The fusion splicer cost typically ranges from \$3,000 to \$30,000 depending on the model specifications and advanced features included. For most commercial projects, expect to pay \$50-\$150 per fusion splice point - but that number can swing in either direction based on the factors below. The "per splice" rate is the most. Idk if that's usual but the ranges are : 1-24 splices 25-72 73-144 144+ Guys that are paid similar to this scale, how much should I be getting paid per range?

Thanks I usually bill T&M, but it works out to about \$175-250 for setup/teardown per site and \$4-7 per fiber for prep in a new tray in an. A single fusion splice may be something like \$. On the surface of it, fusion splicing is less expensive. This guide breaks down the key cost-influencing factors across five dimensions—splicer types, technology, performance, accessories, and.
