

How to connect the jumper cable for the armored armor extension

Overview

Common connector types for armored cable include AC connectors and BX connectors. In this DIY guide you will learn how to correctly use and connect up armoured or SWA cable. Learn how to use armoured cable glands to connect to consumer units, weather proof enclosures and the similar when using armoured or SWA cable to run to and power garages, out buildings and similar. In this article, we'll explain the basics of how to wire armoured cable from a house shed. To begin with, it's important to make sure that you have the right tools and materials. Make sure you. Connecting armored cable to a junction box is a crucial task that requires precision and adherence to safety standards to ensure a reliable electrical connection. This process involves several key steps, from preparing the cable to securing it within the box and making the necessary wire. The old garage was fed by a 4mm 3 core SWA cable, this cable sticks out of a wall where the levels drop by about 6ft, I'm wanting to extend this connect above ground and then dig the cable in underground (finished depth will be 400 mm).
