

How to hang the fiber optic cable suspension wire

Overview

There are 2 main laying types for overhead fiber optic cables, hanging under steel strands and self-supporting. more Fiber optic cable suspension clamp installation manual made by Jera line. Developed to provide a quick access to. They support your cable by providing the means of suspension and elevation, keeping the cable properly tensioned while it is hanging and offering some protection against wind, vibration, and all the other forces of nature. AFL's Mechanical Suspension installs easily while supporting vertical, transverse, longitudinal unbalanced loads and angle pulls without. Deploying fiber above ground on poles or towers removes the need for underground digging and is particularly useful when the ground is uneven, rocky or both.
