

How to open the fiber optic connector closure

Overview

Unlatch the locked device on plastic hoop, open plastic hoop in order to separate the cover and bottom. Insert cable into fiber. How to open Fiber optic cables and build a FOSC aka Fiber optic splice closure (timelapse) ✂ Level Up Your Fiber Skills - Join the One Up Techs Skool ☑☑ <https://www.com/oneuptechs> In this video, I will be opening two types of 288 fiber optic cable, entering them into a FOSC. The scope of application is: aerial, underground, pipeline, handhole. The ambient temperature ranges from -40 to 65°C. Basic structure and configuration. I have this connector on my optic fibers cable and I want to remove the connector so I can pass through a hole in the wall I have no tools for optic fiber cables and i cannot make the whole any larger, can I remove the connector from the cable and put it back on ?

you will need to get someone to. Some closures are designed for connecting several smaller cables to a larger one for breaking out the larger cable to several destinations.
