

Huawei 7706 Switch Wireless AP Access Configuration

Overview

Choose Configuration > Wireless Services > AP Config > AP Info. The AP Info page is displayed. You can configure AP online parameters on an AC, including the AP name, group to which an AP belongs, mode of obtaining an IP address, static IP address, gateway address, and AC IP address list. You do not need to log in to APs one by one to configure these parameters. If you. If you download an AP information template of the Chinese web system under an English Windows operating system (OS), the Chinese characters in the AP information template cannot be displayed. You can choose Start > All Programs > Microsoft Office > Microsoft Office Tools > Microsoft Office 2003. 01-06 AP MANAGEMENT CONFIGURATION GUIDE - HUAWEI 6 AP Management Configuration Guide Pre-configuration Tasks Before managing APs, complete the following task: ● 4.
