

Huawei s 10 Gigabit Ethernet Module

Overview

Huawei SFP-10G-T compatible copper transceiver is a single channel 10. If the SFP-10G-ER-1310 is connected to a 10Gbase-ER standard optical module (1550nm, 10GE, 40km), the maximum transmission distance is only 20km due to different specifications such as wavelength and receiving sensitivity. Single-fiber bidirectional (BIDI) optical modules must be used in pairs. For. This 10Gbps Copper Small Form Pluggable (SFP+) transceiver is suitable for high performance, cost effective module compliant with the Gigabit Ethernet and 1000Base-T standards as specified in IEEE 802. It is also backward compatible with. Huawei compatible SFP+10GE-LH10-SM1310 (02311MUU) is SFP+ (Small Form factor Pluggable) Transceiver, operating over Double Fiber Single-Mode Fiber (SMF) optical cable. It has minimum guaranteed optical budget of 6 dB, with in most cases is enough to reach about 10 km distance.
