

Industrial Switches Commercial Switches

Overview

We offer a range of CAN-based, SAE J1939 compatible Digital Switching products, including a load controller, a variety of keypads, rotary encoder switches and a display controller, which enable the simple integration of multiple digital switching systems in commercial vehicles. We offer an extensive range of illuminated and non-illuminated snap-in mounted Rocker Switches, available in 1 to 4 pole, with many styles of solid coloured, translucent, two colour and paddle actuators. Our rocker switches provide multiple choices for size, style, illumination, circuit, and termination options. Custom colours and legends are also. We offer a wide range of Toggle Switches available in 1 to 4 pole and up to 20A. Our toggle switches offer a variety of nylon and metal toggle styles, as well as illuminated toggles. Heavy duty toggle switches are also available, as well as high temperature snap-in toggle switches. Certifications include UL, CSA and VDE. Our wide range of Push Button Switches are bushing mount in single and double pole configurations with ratings from 1A to 20A. Our push button switches are available in a variety of nylon and metal styles with actuation force ranging from light action 113g, suitable for finger operated applications, to heavy duty 3.6kg, ideal for foot pedal type app. Our multi-position Rotary Switches feature a nylon actuator in a metal clad construction along with a self-cleaning silver plated contact design. These rotary switches are single pole, rated from 1A to 6A, UL and CSA certified and used in applications requiring multi-position speed controls. We also offer V-Series Contura Rotary Switches, designed.
