

# Network cabinet installation spacing requirements

## Overview

Ensure that the holes in the mounting brackets are spaced at 1 U (1. See Reference Perforated Cabinet. Standard two-post telco rack, with mounting posts. The cabinet or rack must be one of the following rack types: Standard 19" four-post EIA cabinet or rack, with mounting rails that conform to English universal hole spacing per section 1 of ANSI/EIA-310-D-1992. A U is the standard rack unit as defined in Cabinets, Racks, Panels, and Associated Equipment (document number. An in wall network cabinet is a special type of enclosure that fits inside your wall. This calculator helps you plan rack layouts by calculating the total rack units. Today, manufacturers are designing data equipment rated at 75W and 150W per square foot, and even higher because server vendors are introducing equipment as small as 1U in height-particularly with servers aimed at the Internet Service Provider (ISP) market.
