

North Asia Multi-hole Channel Cable Tray

Overview

Precision die-molded and automatically welded on our 10 production lines in a 50,000㎡ Shandong factory, this innovative hybrid mesh tray combines molded multi-hole panels with traditional wire mesh structure. Our cable tray systems securely hold and protect cables and come in many models and sizes, solid bottom and ventilated. These decisions are relatively simple and can be condensed down to four steps. Material choice T&B channel tray systems are fabricated from a corrosion-resistant metal (low-carbon steel, stainless steel or an aluminum alloy) or from a metal with a corrosion-resistant finish (zinc or epoxy). We have been successfully providing solutions through mastering our main and is a member of the US Green Building Council. With 100,000 tons annual capacity and 20+ years of expertise, it delivers maximum airflow. Please click the appropriate link below to view the catalog section as a PDF.
