

Pbt104 distribution box

Overview

This power output distribution unit is specifically designed for GXT4 8-10kVA RT208 UPS systems. For installation flexibility, the Liebert GXT4 UPS's (5kVA to 10kVA) allow you to choose from several different input/output power wiring configurations made possible by the use of removable power distribution boxes (PODs) that simply plug into the rear of the UPS. High-quality materials and robust product designs ensure a reliable connection, signal transmission and power. Our flexible distribution boxes enable reliable, decentralized signal transmission and power transmission up to protection class IP67 – wherever passive distribution boxes are required. 19 mm pitch connector available with surface mount and through-hole terminations. PV combiner box, flexible pipeplastic wiring ducts, nvlon cable tie and so on We have advanced production equipment, abundant technical force.
