

Plastic Distribution Box Quota

Overview

The PPWR is legally binding from August 12, 2026, requiring immediate action from all companies to avoid penalties. By 2030, all packaging must be at least 70% recyclable by weight, and plastic packaging must meet specific recycled content quotas (e. The EU Packaging and Packaging Waste Regulation (PPWR for short) provides, among other things, for far-reaching reuse obligations for certain industrial and commercial packaging and corresponding reporting obligations for companies that use this packaging from 2030. It contains the following main obligations: The Packaging Act obliges the dual systems to take ecological criteria into account when calculating the licence fees: the use of packaging that can be easily. On July 14, 2021, the EU Commission presented concrete proposals for a new climate, energy, transport and tax policy. The package, known as the “Green Deal”, identifies the circular economy as the top 1 priority of the measures. We can see a clear trend here: With the help of regulation, the recycling.
