

Price of cable trays and rails in factories

Overview

Wireways and cable trays price structures are dominated by material costs, which account for 60-70% of total project expenses. Steel wireway systems typically fall in the \$8-20 per foot range, while aluminum variants command premiums of \$12-30 per linear foot due to corrosion. The global cable tray market is experiencing robust growth, driven by increasing infrastructure development, the expansion of data centers, and the adoption of smart technologies. The market was valued at USD 5. A cable tray is a mechanical support structure that offers a rigid structural system for the insulated conductors, raceways, and electrical cables used in signal measurement, communication, power distribution, and control. It is usually used for cable management in commercial and industrial.
