

# Price of mobile outdoor optical cable splicing

## Overview

Browse verified fiber optic and cable splicing contractors across the country. Filter by service type and location. For most commercial projects, expect to pay \$50-\$150 per fusion splice point - but that number can swing in either direction based on the factors below. Our experienced technicians utilise the latest equipment. Equipment rental with Fibreplus makes it easy to manage - get the exact products you need, for the time you need it, with next-day delivery and full technical support. Our range includes VIAVI and EXFO OTDRs, Mainframes, Modules and other test equipment as well as Sumitomo fusion splicers so no. Fibre splicing involves the joining of two optical fibres to form a continuous path for light signals, crucial for maintaining high-speed data transmission. We place tremendous emphasis on productivity and quality to meet the milestones and deadlines set by Fibre Network Operators (FNOs). With our experienced team and cutting-edge technology, we possess the flexibility. At McHugh Comms, our expert teams specialise in comprehensive termination, splicing, and testing services for both underground and overhead sections of the PIA network.
