

Suriname Optical Cable Construction

Overview

In 2024, Suriname launched the "Deep Blue One" submarine fiber optic system construction project, a key infrastructure initiative aimed at improving the country's coastal and offshore communication connectivity, supporting marine resource development, and bridging the digital divide between coastal. Deep Blue One is a 2,000 km cable connecting French Guiana, Suriname, Guyana and Trinidad & Tobago, with the opportunity to connect offshore oil and gas rigs on the back of the industry boom in the Caribbean and Latin America region. The French Guiana leg to Trinidad is 1,600 km long. Deep Blue One. UCC focuses on the design, construction and maintenance of infrastructure related to ICT networks (fiber / copper), cable television, telecommunications systems, electricity and drinking water.
