

Swiss Connector Box 4-core

Overview

The 4-core fiber termination box provides a stable, protective joint between optical cable and distribution pigtails at the end of fiber cables. It is typically used in cabling work area subsystems. Built with Graded Index Fibers (GIF) for superior beam expansion and optical performance, PS+ offers lower insertion and return loss compared to ball. Fiber optic splicing metal box for 4 adaptors SC simplex, LC duplex or E2000. Though we pay utmost attention, we cannot guarantee. The 4-core optical fiber distribution box is used for fusion splicing, splitting, wiring and other functions of optical transmission port. With its total enclosed structure. Grandway's Fiber Termination Box provides a high density wall mounted solution for next generation networks, which aims to provide and manage maximum numbers of fiber termination in a limited space.
