

Vertical bends of ladder-type cable trays

Overview

A ladder type cable tray vertical outside bend is a fitting used to change the direction of cables vertically, typically at a 90-degree angle, but in the opposite direction compared to an inside bend. All fittings are available in sizes and types corresponding to the straight cable tray sections. This accessory is designed to allow cables to turn upward or downward while maintaining their. Hubbell's NEXTFRAME® Ladder Tray is the effective and widely used cable runway that supports and delivers bundles of cable between cabinets, racks, and closets, along walls, and suspended from ceilings. The Ladder Tray features light, rugged, tubular steel construction. It is designed for. Ladder Rack Curved Sections (cULus Classified) provide a vertical (plane) change in direction.
