

What manufacturers produce circuit distribution boxes in South Africa

Overview

Brands like York, Okari, Enlec, Utilec ©, PSO1 and PSO2 are well known in the South African market and are all solely manufactured by Allbro in South Africa. Local manufacture to international standards means that products are suited to the rigors of an extremely tough local. Allbro supplies key components that are used in almost every locally made transformer. With the acquisition of ABB's South African enclosure business (York) in 2011, Allbro also became a leading supplier of non-metallic enclosures to the industrial, commercial and residential contracting trades. Our team consists of ECSA registered Professionals and highly trained Engineers. Gem Switchgear is a leading distribution board manufacturer in South Africa. The company undertakes the manufacture of a comprehensive range of low and medium voltage. NUR is a Manufacturer and distributor of electrical products to the southern African market. This electrical distribution box can be flush-mounted or surface-mounted.
