

What to do if the switch cannot connect to the core network

Overview

Begin by looking at the power and LED lights on your network switch. Make sure all cables are plugged in tight. Turn your switch off and then on to fix errors. This helps you find what is causing the problem. Do the clients connected to the core switch get an Internet connection?

Try to ping from the switch with a source ip: 11-26-2021 12:49 AM - last edited on 11-27-2021 11:53 PM by Translator Type escape sequence to abort. 11-26-2021 01:00 AM Hello, post the output of 'show ip route' from both. A network switch failure can disrupt business operations by causing connectivity issues, packet loss, and downtime for connected devices. Whether using a managed or unmanaged switch, diagnosing and fixing switch failures requires a structured approach. Cisco, Juniper, Arista, Fortinet, and more are welcome. This disruption affects business operations, communication, and productivity.
