

What tools are needed to make pigtails

Overview

Key tools for creating a pigtail connection include wire strippers, pliers, wire nuts, and appropriately gauged and matched wiring. Disclaimer: Always use multiple sources and do your homework before performing any electrical work. Cut 6 inch lengths of THHN or unsheathed Romex wire. Here's a list of what you'll need: You can easily find these items at your local hardware stores. [How Can You Make an Electrical Pigtail?](#)

Now. Tools you'll need: Screwdriver, wire cutters, wire strippers, wire tester, pliers, utility knife, flashlight or another portable light source, and about 6 inches of new wire. [Click this link for the video showing you How To Make An Electrical Pigtail.](#) Safety tips. The National Electrical Code (NEC) requires a pigtail to be at least six inches long. Although this standard applies to house wiring, we can use the same for vehicle wiring.
