

Which quota applies to fiber optic cable installation in the computer room

Overview

3 (H) was added to include requirements for optical fiber cables in IT rooms. Permitted wiring methods under raised floors in IT rooms have been formatted into a list in 645. The Fiber Optic Association, Inc. The charter of the FOA was to promote professionalism in fiber optics through education, certification, and. With all of the new code changes in Article 645, electricians installing or working in IT rooms would do best reading all 4 pages of Article 645 from beginning to end to become familiar with the new revisions. 3 (B) pertaining to wiring and cables used in. Where reels are supplied with protective material fitted over the cable, the protection should remain in place until the cable will be installed. During installation, all curvatures should be smooth. Turn-backs and all sharp changes of direction. When planning a fiber optic installation, understanding the unique considerations of new construction fiber optic projects is essential. These projects often involve designing a cable layout that aligns with the specific needs of the site while anticipating future scalability. Existence of a standard shall not preclude any member or nonmember of NECA or FOA from specifying or using.
